

PRIVATE GIGS

BEN MITCHELL

LIVE ACOUSTIC +

Parties and weddings often require a mix of live music and either someone on the iPad/phone or a DJ to take it home. Ben plays solo acoustic, with a looper pedal, but can also finish the night with a DJ set, perfect for getting all those requests into the dance set.

TESTIMONIAL

“Ben performed at our Wedding at Stones back in February and exceeded all of our expectations. He was a complete professional from the moment we booked him and really paid attention to our musical tastes and captured the tone we wanted for our day perfectly. Ben is very easy to communicate with and took on any feedback we had with regard to song selection with ease. On the day he arrived to the venue early to set up and managed all of the music from the ceremony, pre-dinner drinks, reception and the final send off. He did not miss a beat from our (very detailed) run sheet and played a vital role in bringing the whole wedding together. His ability to read and play to a crowd is second to none and we were flooded with comments from guests about how great the music was. We highly recommend Ben for weddings or any function where you need a talented and professional musician.”

Kate, (Married Paul at Stones, Yarra Valley in 2019)
